LOCATION LOOKUP

Location	Point Class	Point Type	Point Name	State	County Name	Segment	Status	Dir Of Flow	Operator	Operator Agent
25405	INTERCON...	Trunkline			VERMILION	ACTIVE	RECEIPT	Connectio...	Connectio...	
78536	INTERCON...	Test Locat...			JACKSON	ACTIVE	RECEIPT	Connectio...	Connectio...	

5 & 6. Select the **Begin & End Date**.

7. Select one of the following **Entity Types** from the dropdown:

- a) **Location**: Provides a summary for the location number specified for the date range selected.
- b) **OBA/DPOA**: Provides a summary of any quantities scheduled for the location(s) on an OBA/DPOA contract for the date range selected.

8. Depending on the Entity Type chosen, enter the **Location #** or **OBA/DPOA contract #** in the **Enter ID** field, or click the  to use the **Lookup** screens.

 To **retrieve data** in the **Lookup** screens, **enter information** in the filter fields and then **tab** or **click** the **Select** button if available. Once results appear, clicking a column header allows the results to be **sorted** by the data in that column.

9. Click the **Retrieve** button.

10. If the **Entity Type** selected is:

a) **Location:** Daily quantity information is displayed by **Gas Date** on the top of the screen. **Select a line item** to display the associated **Location Details** on the bottom of the screen.

i The Confirmation Summary screen displays data by the nominated, confirmed, scheduled, makeup, and measured quantities with a variance and percentage calculation of scheduled vs measured.

Actual measured quantities have approximately a two day lag time.

The **Variance** calculation uses the estimated quantity if the actual quantity is blank.
